## A Tribute

A hospital case manager and social worker is expected to be many things: caring, sympathetic, patient, resourceful, a translator and mediator: the beacon that holds a family's hopes together as they muddle through a foreign world. When there is no answer, they dig deeper, research and call all resources looking for the miracle the doctor or family is searching for. Often they get attached and feel the pain as they help families deal with the harsh realities life has dealt them.

Still, each day they show up at work not knowing what challenges and heartbreaks they will face, as they light the way for all of us.

Our case managers and social workers serve as our beacon, our lighthouse! This is a tribute to all those who work as case managers, social workers and discharge planners.

Thanks for making a difference!!
